1070 ECO obtained ECOBOARD certification!

Pioneer in the market of biobased epoxy resins, Resotech is proud to announce that bio-based lamination resin 1070 ECO just obtained level one certification from the Eco Board project!

Manufacturer : Maz surfboards – France

1070 ECO is now part of the qualified materials to manufacture ECOBOARDS!

With **31% of bio carbon content** on the cured resin 1070 ECO has one of the higher biocontent without any compromises.

With 25% improvements in mechanical properties compared to a standard surfboard resin and excellent UV resistance, Resotech's 1070 ECO enables to manufacture long lasting eco-friendly surfboards.
